- Install required networking hardware on site.

Technical Projects

Outdoor Adventure Club

Custom web-platform for a local club at Oakland University. Built from the base up using the Laravel framework using recommended security practices. Designed to manage trip registration, gear rental, and track which members have paid dues. Admin accounts have permission to add/remove access to certain pages for individual users. These moderators then have access to add/remove/edit trips and can verify individual members.

TECHNICAL SKILLS

Languages: PHP, Node.js, Swift, Java, HTML, CSS, JavaScript, C, C++, PowerShell
Tools: AWS, Laravel Framework, Angular, Linux, XCode, PHPMyAdmin, Wordpress

ORGANIZATIONS

Robotics Association, League Of Engineers and Computer Scientists, Adventure Club

LEADERSHIP ACTIVITIES

Outdoor Adventure Club at Oakland University Webmaster, Outdoor Challenge President, Cross Country Team Captain, Track And Field Team Captain
